DAGM GCPR 2021 - Regular Track

Paper ID 000

Abstract. The abstract should briefly summarize the contents of the paper in 150–250 words.

Keywords: First keyword · Second keyword · Another keyword.

1 First Section

Please add the paper submission id and the track name to the paper.

1.1 A Subsection Sample

Please note that the first paragraph of a section or subsection is not indented. The first paragraph that follows a table, figure, equation etc. does not need an indent, either.

Subsequent paragraphs, however, are indented.

Sample Heading (Third Level) Only two levels of headings should be numbered. Lower level headings remain unnumbered; they are formatted as run-in headings.

Sample Heading (Fourth Level) The contribution should contain no more than four levels of headings. Table 1 gives a summary of all heading levels.

Table 1. Table captions should be placed above the tables.

Heading level	Example	Font size and style
Title (centered)	Lecture Notes	14 point, bold
1st-level heading	1 Introduction	12 point, bold
2nd-level heading	2.1 Printing Area	10 point, bold
3rd-level heading	Run-in Heading in Bold. Text follows	10 point, bold
4th-level heading	<i>Lowest Level Heading.</i> Text follows	10 point, italic

Displayed equations are centered and set on a separate line.

$$x + y = z \tag{1}$$

Please try to avoid rasterized images for line-art diagrams and schemas. Whenever possible, use vector graphics instead (see Fig. 1).

Fig. 1. A figure caption is always placed below the illustration. Please note that short captions are centered, while long ones are justified by the macro package automatically.

22 **Theorem 1.** *This is a sample theorem. The run-in heading is set in bold, while* 22
 23 *the following text appears in italics. Definitions, lemmas, propositions, and corol-* 23
 24 *laries are styled the same way.* 24

25 *Proof.* Proofs, examples, and remarks have the initial word in italics, while the 25
 26 following text appears in normal font. 26

27 For citations of references, we prefer the use of square brackets and consecutive 27
 28 numbers. Citations using labels or the author/year convention are also accept- 28
 29 able. The following bibliography provides a sample reference list with entries 29
 30 for journal articles [2], an LNCS chapter [5], a book [3], proceedings without 30
 31 editors [4], and a homepage [1]. Multiple citations are grouped [2,5,3], [2,3,4,1]. 31
